***monty™* 3850**

TIRE CHANGER

monty™ 3850

The monty 3850 is a heavy-duty tire changer designed for tubeless & tube-type wheels. This changer can mount/demount all truck, bus, tractor and off-road tires up to 60" in diameter.

Four Jaw Clamping Chuck

These self-centering hydraulically-operated clamping jaws can clamp from 14" - 26" either from the inside of the wheel or the wheel's center bore.

One-Man Operation

The remote control console allows one person to safely monitor all tire changing operations.

Patented Mount/Demount Head Assembly

The bead breaker disc & mount/demount heads are combined into one assembly for ease-of-use.

Versatility

The 3 HP bi-directional chuck motor and heavy-duty hydraulics allow the monty 3850 to handle the toughest tubeless, tube type, single or multi-piece, Budd, and Dayton wheels.

Training Video

A comprehensive training video showing the actual mounting and demounting techniques for on and off-road wheels is available with the tire changer.

TIRE CHANGER

Specifications

Wheel Clamping Diameter:	14" - 26"
Max. Wheel Assembly Diameter:	60"
Max. Wheel Width:	31"
Hydraulic Motor:	2 HP
Chuck Motor:	3 HP
Lifting Capacity:	1,400 lbs.
Dimensions (WxDxH):	87"x64"x48"
Shipping Weight:	1,200 lbs.
Power Requirements:	200/230V, 1/3Ph, 50/60 Hz

Standard Accessories

EAA0247G02A	Tire lever
ST4004461	Large bead lifting lever
ST4002354	Bead mounting lever
ST4014914	Alloy jaw protectors
EAA0329G10A	Wheel clamp pliers

Optional Accessories

2200040	Split wheel clamps (2)
ST4022287	Bead roller
2306808	Alloy wheel pliers

Hofmann manufactures a complete line of wheel service equipment.
